YALE WINS OVER HARVARD 6 TO 3 SCORE

Thousands of Machines Encircled Great Yale Bowl for Annual Gridiron Contest

MINNESOTA LEADS CHICAGO FIRST QUARTER, 14 TO 0

Army Holding Edge Over Marines in First Period of Play With 9 to 0 Score

New Haven, Conn., Nov. 25. Yale defeated Harvard here this afternoon 6 to 3. Football prosperity and the high cost of living intermingled in the great annual contest.

More than 75,000 persons began to thread their way to Yale bowl before noon today to see Yale-Harvard football game. A driving wind and a temperature below freezing made life decidedly interesting. Football enthusiasts were in evidence. An advance notice said that 77,453 tickets were sold. In New Haven, it was stated these did not include more than 200 press tickets; 400 sideline seats and a thousand or more temporary ball game, the proximity of Cambridge gave Harvard students almost as good a chance to see the game as the Yale crowd.

Yale and Harvard legions arrived by train and automobile from all parts of the country. The motor traffic was far greater than ever before and garage space could not be had at any price.

Thousands of cars were packed around the great bowl. Early this morning their owners and guests sought quarters in the boarding houses and the homes of local residents.

The real crash came this morning when special trains from New York, Boston and intermediate points brot additional thousands that, with the motor car clan, made up the 80,000 spectators at the game.

Wagering odds fluctuated considerably during the morning hours. Harvard continuing to be the favorite. A majority of the bets were laid at 10 to 9, with the crimson cohorts giving the extra point to bring out the Yale money.

GOPHERS LEAD CHICAGO

END OF FIRST HALF 23 TO 0

Chicago, Nov. 25. Minnesota started off with a bang in the final game of the season against Chicago on Stagg field. Two touchdowns were scored by Wyman, the Gopher full-back. First period Chicago was outplayed in every department. The perfect Minnesota machine tore into the Maroon line making gains on every plunge. The first period, ended with the score, Minnesota 14; Chicago 0. Minnesota holding the ball to Chicago's 5-yard line.

In the second period, Minnesota scored two touchdowns, both made by forward passes. Goals after each touchdown brought the score to 28. Chicago had not reached to within striking distance of Gopher goal at the end half of the first.

CHILD WELFARE CLUB ORGANIZED HERE

A local chapter of the Child Conservation League of America was organized Friday afternoon at a meeting in the First Baptist church. Mrs. C. W. Harmon, a representative of the league acted as chairman.

Following the adoption of the resolution and by-laws these officers were elected: President, Mrs. E. P. Quinn; vice-president, Mrs. Bruce E. Jackson; secretary, Mrs. E. H. Howell; treasurer, Mrs. D. B. Cook; press reporter, Mrs. M. F. Cushing.

The club will meet the first and third Fridays of the month at 3 o'clock. The next meeting will meet December 15 and a short program has been assigned for that day. A large membership has been secured and enthusiastic plans are being made for the year.

Mrs. Harmon gave a very interesting and instructive address regarding the work which deals entirely with the physical and mental development of the child.

DOES NOT WANT PRICE INFLATED

Austin, Nov. 25. Governor Ferguson does not want the price of foodstuffs reduced. He said so here publicly. The governor claims that if the food price is reduced it would be at the expense of the farmers and he is not willing that the farmers should lose any of their hard earned prosperity. The governor owns about a quarter of a million dollars in Texas farms.

Chicago, Nov. 25. The diet squad had "bash" today as a portion of their battle against the high cost of living. So far the cost of the meals have averaged about forty cents a day.

THIRTY \$10,000 MORE FROM STATE'S DEBT

An additional ten thousand was trimmed from North Dakota's bonded indebtedness at a joint meeting of the state auditing board and the state board of university and school lands yesterday. On motion of State Treasurer John Steen, \$10,000, being the complete balance outstanding of the state university refunding bonds, was retired from the interest and sinking fund.

The complete bonded indebtedness of North Dakota is now \$462,000, or approximately sixty cents per capita. Four years ago the state's bonded debt was \$387,300. Practically all of these bond payments have been anticipated, and the money paid into the state university and school funds as a result has immediately been reinvested in farm mortgages and public school bonds.

Volunteers Appealed For To Save Little Boy's Life

An appeal for volunteers was made this afternoon by C. H. Pherrill, father of Clarence Pherrill, near death in St. Alexius hospital, for cuticle skin to be grafted on his son in hope of saving the little fellow's life.

LIKE OTHER BOYS HE CELEBRATED HALLOWEEN
Clarence Pherrill, like many other boys in Bismarck and in the world celebrated Halloween. He was so delighted with his little jack-o'-lantern that he carried it to bed with him the night of November 3.

HAPPINESS IS CONVERTED INTO AGONY
But happiness was converted into agony when the night clothes caught fire, severely burning the little celebrant. When the condition of the child became acute a neighbor by the name of Sullivan was the first to volunteer.

BOY HAS CHANCE TO RECOVER SAYS DOCTOR.
The physician in attendance says that Clarence Pherrill has a chance to recover, if sufficient cuticle is volunteered. The burned area covers half of the boy's breast.

AGREEMENT IS REACHED WITH DIACIO IN HANDS

Activities of Villa in Northern Mexico Have Delayed Negotiations

TERMS WERE PROPOSED BY THE PRESIDENT

Bandit Chief Still Pounding Away for Possession of Chihuahua

MAING PROGRESS.
El Paso, Nov. 25. All noon reports showed that Villa's attack upon Chihuahua City is progressing.

Atlantic City, Nov. 25. Representatives of the de facto government and the United States came to an agreement today relative to the handling of border matters.

The plan as finally determined follows closely that outlined by President Wilson some time ago.

Its terms.
The agreement provides:
First. The American troops now in Chihuahua, commanded by General John J. Pershing, shall be withdrawn within 40 days from the approval of the protocol by the respective governments, provided that within that time the conditions in that part of Mexico have not become such as to endanger the American border. In such event the time shall be extended.

Second. The Mexican army shall patrol the Mexican side of the border and the American army the American side, but this shall not preclude cooperation between the two forces to preserve peace upon the border.

Third. It shall be left to the commanding officers of the armies on the border of both armies to enter into such arrangements for co-operation in operations against bandits whenever it is possible.

The right of American government to send troops across the border in pursuit of bandits was not incorporated in the protocol, but was made the subject of a supplemental memorandum.

Opposed Violation of Country.
The Mexicans had contended, earnestly against signing any agreement in which they appeared to sanction the violation of their national territory. It was the agreement of the Americans finally to content themselves with stating the attitude of the United States in a separate memorandum that induced the Mexicans to sign the agreement.

Villa and Carranza stood in the way of an earlier agreement being reached between the United States and the heads of the Mexican de facto government.

Villistas are making a three-sided assault on Chihuahua City, according to a report reaching the United States department agents. Counsel General Garcia stated the message telling of the beginning of the third day's battle had not yet reached him.

CRUCIAL STAGE.
El Paso, Texas, Nov. 25. Reports reaching the United States government here indicate that the crucial stage in the momentous battle for the possession of Chihuahua City had been reached.

Before dawn, General Trevino, the Carranza commander, engaged the bandits, who are camped northeast and east of the city.

RAILROADS HARD PUSHED; NEW CARS

Estimated More than Billion of Capital Needed Each Year for Ten Years

CHAIRMAN PROUTY SEES END OF STATE CONTROL

Minneapolis Millers Are Handicapped by Lack of Cars to Move Flour

Kansas City, Mo., Nov. 25. Government ownership of railroads was discussed here by Charles A. Prouty, in charge of the interstate commerce commission valuation of railroad properties, and Carl R. Gray, president of the Western Maryland railroad.

"We have in this country a railroad problem, because we are trying to discharge governmental functions with private capital," declared Mr. Prouty. "The railroad problem isn't any nearer settled than it was when the act to regulate commerce became a law back in 1887."

"In the railroad situation we are confronted by four outstanding conditions," Mr. Gray said.

"These are: 'The practical stoppage of railroad construction, the embargo on traffic, the car shortage and the unpopularity of railroad investment."

"We all are aware that the situation is to be canvassed before the Newlands commission. We're going to advocate the practical abolition of the state in the making of a railroad rate and we'll ask for national incorporation of railroads. Next we're interested in the labor situation. The greatest step this country ever has taken toward government ownership was the passage of the Adamson eight-hour bill.

NEED CAPITAL.
Washington, Nov. 25. Alfred P. Thom, counsel for the railroad's executive committee, declares that the railroads will need \$1,250,000,000 additional capital annually for the next ten or twelve years to increase their facilities to handle the country's expanding commerce.

BLOCKADE IN MONTANA.
Helena, Mont., Nov. 25. Reports from Inspector Fuller of the Montana railroad commission show a decidedly congested state of affairs of traffic on the Great Northern in the northern part of the state. A blockade of traffic at Billings is indicated.

MILLS LACK CARS.
Minneapolis, Minn., Nov. 25. Facing the Northwest's most acute car shortage and an utter inability to move their grain with the closing of lake navigation, W. H. Hovey of the Washburn-Crosby Milling Co. today predicted that four mills in this, the country's greatest milling center, may be forced to close down indefinitely. Mills are now running only part time, because of the car shortage. It is admitted that closing the mills would increase the flour shortage and boost flour prices.

SPENT \$687.70.
Miss Jeannette Rankin, the lady from Montana, spent \$687.70 on her campaign for congress.

YOUNG GIRL ASSAULTED

Dickinson, Nov. 25. While going to her home, Monday evening, Miss Mary Blank of this city was knocked down and slightly bruised by Frank Rausch, who jumped from behind a building and struck her.

The brutal blow aimed at the girl by Rausch was partly lost in its effect by a side step. The young woman was taken home by railroad men. It is believed that her refusal to let Rausch accompany her home was responsible for the assault.

PAROLEE MAN SLIPS AGAIN; BACK TO PEN

Jamestown, N. D., Nov. 25. G. H. Leach, parolee from the state penitentiary was arrested here today on a forgery charge. Leach forged a check for \$30 using the name of G. H. Howe, his employer. He waived examination signifying his desire to plead guilty.

He will go before Judge Coffey at a special term of the district court next week and probably will be sent back to the penitentiary.

Belgians Not Making Any Munitions

Amsterdam, Nov. 25. Germans strongly deny that any Belgians have been deported to be used in the manufacture of munitions of war. Some Belgians have been deported to Germany, they explained, but this was due to the fact Belgian officials failed to solve the problem of the unemployed. The German government has taken steps to return all Belgians improperly deported.

CONTRACT AWARDED FOR TRAIL FERRY

Charles Wilcox, Expects Ferryman, to Build \$5,000 Boat for Mandan

L. A. Tavis of Mandan, a member of the Red Trail Ferry company, recently organized to establish service between Mandan and the Capital City, announced at the capitol this morning that Charles Wilcox, an experienced ferryman, has been awarded the contract to build a boat to cost between \$5,000 and \$6,000, and which is to be placed in commission as soon as the ice goes out in the spring.

The boat will be built at Washburn, where material will be delivered about January 1. It will be 64 feet long, with a 27-foot beam, and will be propelled by a 30-horse power Otto engine. It will accommodate eight cars and will carry a crew of three. Permanent approaches and shelter houses will be built on both sides of the river.

The grade for the new Red Trail highway leading from Mandan to the Missouri has been graded half way to the river and will be completed early in the spring.

PROVISIONAL GOVERNMENT UNDER FORMER PREMIER VENIZELUS TAKES LEAD

To Probe High Cost of Food

Washington, Nov. 25. How to increase and if possible equalize distribution of the food supply and thereby combat the rising cost of living will be the subject of federal investigation. The departments of commerce are at work upon a plan to probe present high prices. Administration officials believe that prices are due to the fact that food production is below the normal and that the demand is abnormal.

REBELLIONS BEAT OFF
BULGARS AT MONASTIR

Little Activities Along West Front Due to Heavy Rain

TRUCK BASH
London, Nov. 25. The German fleet attempted to approach Dover today but was frustrated in the attempt.

London, Nov. 25. Advice received here today state that the Greek provisional government under the leadership of former Premier Eleutherios Venizelos, has formally declared war on Bulgaria.

Several thousand Greek soldiers have joined the colors of the Entente armies and are engaged in the operations about Saloniki and Monastir. Serbian troops north of Monastir have repulsed Bulgarian counter attacks in the region of Grunista. Italian troops under General Sallust succeeded in progressing further. West of Monastir operations are hindered by rain and mud.

Fresh Gains.
Along the Rumanian front, the Germans continue to make fresh gains against the stubborn resistance of the Rumanians. In today's action, the Teutons captured 300 officers and 800 men.

Russian official advices state that the Germans have crossed the Danube and that the Rumanians are being forced back in the Alt valley south of Kallimanischt and Moldavost.

The official dispatches from the German war office at Berlin tell of three other towns captured south of the Alt.

In France and along the Flesch war front, heavy rains have prevented any activities of importance.

Mr. Neratoff has been named minister of foreign affairs, succeeding Eymer Sturmer. Neratoff has been acting as assistant foreign minister for several months.

German troops have crossed the Danube, landing at Islaz, Roumania. The advance northward from Zimnica has been stopped.

Berlin reports the appointment of former Foreign Minister Gottlieb von Jagow, life member of the upper house of the Reichstag, and Wilhelm von Strumme and Baron von Dembusch have been selected as joint secretaries of the foreign offices.

Newspaper dispatches from Athens say that the British hospital ship Braemar Castle was torpedoed, not mined. It carried 400 British wounded.

For nineteen years, Mr. Chas. Froelich, R. F. D. No. 2, Gorham, Kansas, suffered from stomach and kidney trouble. He tried all the doctors for miles around but got no relief, and had about given up, when Mrs. Froelich read in the Kansas City Post about Fruitola and Traxol and what it had done for a man with stomach trouble. He says, "She sent for Fruitola and Traxol and from the first I felt better. I only took two bottles and am well now and can eat and work like a young man. Fruitola and Traxol did it and I'll do all I can to get others to try it."

WHY RHEUMATISM COMES WITH COLD WEATHER

By Valentine Mott Pierce, M. D.
 A close connection exists between these two cold weather and rheumatism. Prof. Alex. Haig, of London, has the most followers in the medical profession in the belief that the presence in the system of uric acid, or its salts in excess, is the real cause of rheumatism. Every one has recognized the difference in the appearance of their water as soon as it gets cold; there is often a copious sediment of "brick-dust."
 Several causes may lead up to an accumulation of uric acid in the system, which, in turn, cause rheumatism or gout, or creaky joints, swollen fingers, or painful joints. For one reason the skin does not throw off the uric acid by profuse sweating, as in the hot weather, and the kidneys are unable to take care of the double burden. Another reason is that people do not drink as much water in cold weather as in summer, which helps to flush the kidneys. Again, they eat more meat in cold weather, and some people are so susceptible that they soon develop rheumatism after eating meat.
 At all such times persons should drink copiously of hot water, say, a pint morning and night, and take Anuric three or four times a day. This Anuric comes in tablet form and can be had at almost any drug store. It dissolves the uric acid in the system and carries it outward. I would advise everyone to take Anuric occasionally, and continue for three or four weeks, and in that way avoid rheumatism, gout and many of the painful disorders due to uric acid in the system.
 Make yourself healthy and strong by open-air exercise and diet. Then cleanse the liver by occasionally stimulating its action with a pleasant laxative composed of the May-apple, dried juice of aloe, and root of jalap. Sugar-coated and long sold by druggists as Dr. Pierce's Pleasant Pellets.

RED CROSS KACHMA
\$175 AT NOON TODAY

The Red Cross seal sale in the Capital City at noon today amounted approximately to \$175.00 and it is expected that as much more will be realized at the close of the day. The report at noon was incomplete as some of the committees had not reported.

At one prominent hostelry alone 1,200 seals were sold and equally as many were disposed of at the other hotels.

Groups of women and girls made a thorough canvass of the city visiting the business and residence sections alike. Some very large individual sales were reported amounting to as high as \$10.00.

GREECE TAKES LEAP.

It is a divided Greece that enters the war.

The provisional government that has usurped all constitutional powers ignores King Constantine, who leans toward the Teutons and has insisted upon strict neutrality.

What the ultimate outcome will be of this declaration of war remains to be seen. Does this disregard for monarchy mean the establishment of a Greek republic?

Developments in Greece will be watched with even closer interest than in the past.

Success stimulates some stupidities others.

MARMARTH OIL FIELDS.

It is gratifying that some definite step has been taken looking toward the development of the Marmarth oil and gas fields. The presence of oil and gas in the extreme southwestern section of the state has been sufficiently demonstrated by boring. Whether the underground stores are of sufficient extent to be developed with profit remains to be seen. An oil company, chartered by the state of North Dakota, and with an authorized capital of \$500,000, intends to see, and the Slope region generally will follow its operations with deep interest.

Age is not a state of the body, but of the mind.

ROOM FOR ECONOMY.

The Non-partisan league's efficiency and economy program will meet with very general approval. The state government too often has been created a job-making institution rather than an effective machine for the administration of the people's public business. While North Dakota has been comparatively free from chair-warmers, there are several instances in which the consolidation or combination of conflicting departments will save money and at the same time promote greater efficiency.

Argument is a whetstone for the knife of invention.

THE NEW COUNTY SPAT.

Now that Carson has been fortunate enough to win the much coveted county seatship of Grant, the Tribune knows the good people of the new county well enough to predict that they will all pitch in with a will to aid Commissioners Thomson, McDowell and Wade in the difficult work which they have ahead of them. They are good fighters down there in Elgin, New Leipzig, Leith and Bismarck, and a good fighter is always a good loser. If two years hence it shall prove that the county seat is not suitably located, then will be time enough for a renewal of hostilities. In the meantime, it is the duty of everyone to join forces, see to it that Grant receives all that is coming to it and that the list of county officers whom the commissioners are to appoint receive the support to which they are entitled.

Love, like a violet, is often passed by in pursuit of the sunflower, success.

"HEARD SUNDAY."

Helen Keller, world's most famous blind and deaf woman, went to hear Billy Sunday, evangelist, who is now preaching in Boston.

"The noisiest man I ever heard," she said. "He is a monkey wrench thrown into the machinery of the social revolution that is surely coming. He is doing a lot of good, but not in the way he thinks he is. He is preaching an old faith, but he has not heard from God in a long time!"

STOCK MARKET IS VERY STRONG

Good Demand for Offerings Causes General Advance

New York, Nov. 25. With a good demand for all stock, a general advance was shown on the stock exchange today, especially in coppers.

Utah Copper opened up nearly five points. Anaconda reached 100½; U. P. ¾, and others showed fractional gains.

American smelter advanced a point. U. S. Steel sold at 127½ up ¼, and was followed by Republic up ½ at 91. Price changes in rails were only fractional.

Signing the Mexican agreement resulted in the advance of three points in Mexican Petroleum, which sold at 112½ during the first hour. Green Cananea gained 2½ to 55 and other coppers and smelter stocks with Mexican interests strong.

CATTLE MARKETS

Chicago, Nov. 25. Hogs closed active and 5 to 10c higher today, with the top at \$10.20. Estimated receipts for Monday, 60,000.

Cattle were weak, with the top for beefs at \$12.00; for calves, \$12.75. Sheep were steady, with top at \$13.50; lambs, \$12.25.

TO INVESTIGATE TERMINAL ELEVATORS UNTIL SESSION COMMISSION MUST GO SOME

The North Dakota railroad commission has a man-sized job ahead of it, providing the amendment repealing the mill tax for terminal elevators has carried, which semi-official returns seem to indicate. This amendment provides that the commission must investigate the location of a terminal elevator, the cost of building and obtaining sites, and submit a report of its findings to the next legislature. The commission has had no authority to incur expenses for this purpose prior to an official certification from the secretary of state of the passage of the amendment. The board has little more than a month in which to look into this weighty proposition, make its findings and prepare its report to the 1917 legislative assembly, but the commission promises to "give the subject the earnest and conscientious investigation its importance deserves."

WANTS QUICK ACTION ON SUIT FOR \$50,000 AGAINST GOV. HANNA

Receiver Michael Murphy of Medina State Bank Asks that Date Be Advanced

Michael Murphy, receiver for the defunct Medina bank, which he contends was wrecked by the failure of its stockholders to come to the rescue with cash at the psychological moment, wants quick action on his suit for \$50,000 in which Governor L. B. Hanna, E. J. Weiser, president of the First National bank of Fargo, and the last named bank are made defendants. The supreme court this afternoon is hearing arguments on Murphy's application for the advancement of this case on the supreme court calendar, where it is now set for hearing at the December term.

Murphy contends that the defendants, stockholders in the Medina state bank, agreed January 10, 1914, to advance \$20,000 needed by the institution to tide it over and to accept as collateral for the loan unpledged bills of the bank. This, he claims, they failed to do when called upon; as a result, he alleges, the bank was unable to continue its business; its assets were reduced from \$38,000 to \$40,000, and its good will was entirely lost, for all of which he claims \$50,000 in damages from the defendants.

The original action was brought in the district court of Cass county, where Judge Pollock sustained a demurrer of the defendants to the complaint. Murphy then appealed to the supreme court.

MORE MUTUAL INSURANCE COMPANYS FOR DAKOTA

Commissioner in Report Notes Admission of New Associations

Five new county mutual insurance companies were admitted in North Dakota during the fiscal year covered by Insurance Commissioner Taylor's thirteenth annual report of the department. These were the Farmers County Mutual Insurance Association of Sheridan county, McHenry; the Farm Farmers Mutual Fire Insurance Co. of Williams county;

Bonetrail; the Hettinger County Mutual Fire Insurance Co. of Mott; the Bontrail County Mutual Insurance Co. of Bontrail; and the Wildrose Farmers Mutual Fire and Lightning Insurance Co. of Wildrose.

New fire insurance companies were the American Eagle Fire Insurance Co. of New York; the Norwegian Underwriters of New York; the Safeguard Insurance Co. of New York; the Western Union Fire Insurance Co. of Waseca, Minn.; the Continental Life Insurance Co. of Salt Lake City, Utah; the German American Life Insurance Co. of Omaha, Neb.; the Guaranty Life Insurance Co. of Davenport, Ia.; the Hartford Accident & Indemnity Co. of Hartford, Conn.; The Iowa State Live Stock Insurance Co. of Des Moines, Ia.; the London & Lancashire Indemnity Co. of America, New York; the Montana Livestock & Casualty Co. of Helena, Mont.; the

New England Equitable Insurance Co. of Boston, Mass.; all old line companies.

Assessment companies admitted were the "Boosters," Accident Association of America, Minneapolis, Minn.; the Business Men's Accident Association of America, Kansas City, Mo. The "mutuals" included the Minnesota Implement Mutual Fire Insurance Co. of Owatonna, Minn.; the Ohio Farmers' Insurance Co. of LeRoy, O.; the Grain Dealers' National Mutual Insurance Co., operating state wide, and the county associations first named. The only new fraternal insurance order admitted during the year was the Woman's Catholic Order of Foresters of Chicago.

OLD-TIME COLD CURE
DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacupful at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness From Joints with Muscles With a Small Trial Bottle of Old St. Jacob's Oil.

Stop "dosing" Rheumatism. It's pain only; not cure. In fact, it requires internal treatment. Rub soothing, penetrating St. Jacob's Oil right on the "tender spot," and by the time you say Jack to it, the pain comes the rheumatic pain. St. Jacob's Oil is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Linger up! Get a 25-cent bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

CALLS NORTH DAKOTA STATE IN THE MAKING

Governor Hanneke's Wonderful Future for Great Commonwealth

"North Dakota is a great state in the making," said Governor Hanneke this week, in addressing a Slope delegation. "It will be in the future what we, its present citizens, make it."

"The east even our own Red River valley has no appreciation of the land west of the Missouri. A few years ago, when I bought a farm in the Slope country, my friends in the valley regarded me as a fit subject for an insanity inquest. Even today, the eastern part of this state has no conception of the vast natural resources of central and western North Dakota."

"The day will come when our lignite, made into briquettes, will supply the entire northwest with a splendid fuel. We have more coal than Illinois, Iowa and Pennsylvania combined. Yet, every year, we send \$4,000,000 to \$5,000,000 out of the state for coal."

"We are burning every year straw which could be made into products worth millions, and the day is not far distant when we will have industries to utilize this waste."

ELICKSON SAYS OFF ADVANTAGES OF REGENT

F. E. Elickson, editor of the Regent Times, declared this morning that "Regent is fortunate in its situation in a favored portion of Hettinger county," to have the proposed survey of the Northern Pacific made one mile south of there, changed in order to take in the town.

"Regent is amply supplied with general stores, has two good banks, a postoffice which was made third class, one daily rural route and two others under consideration, its freight house receipts place those of any other office along the line with the possible exception of New England, and it is the greatest primary wheat market in the world," said Elickson.

According to the Regent editor, the four grain elevators, took in around \$800,000 bushels of grain last year. He stated that the farmers in that territory are going into the dairy business just as fast as possible, the Holstein and the Guernsey herds being the favorites; a number of farmers now getting checks of from \$80 to \$100 per month for herds of a dozen cows.

"The Commercial club of Regent is interested in the project of the extension of the Northern Pacific and the building of the Milwaukee to Marchant," said Elickson. "The real need of that southwestern country is just such railway service. As it now is, it is such more convenient for business men to do business with Aberdeen and Minneapolis. In all fairness, that country should be as nearly as possible a part of North Dakota and we believe that making Regent a North Dakota town would be to the advantage, not only to the community itself, but would mean business to North Dakota wholesale houses."

A Word to the Public From I. H. I. Vosperman

This is the most important theatrical announcement I have ever made during my long career as a manager in this city.

I have just contracted with Messrs. Wm. Elliott, P. Ray Comstock and Morris Gest to bring their magnificent production of "Experience," the most wonderful play in America, to Bismarck, one night, Monday, December 11.

"Experience" is without doubt the greatest success of this day and generation. It ran for nine months in New York, five months in Boston, seven months in Chicago and seven months in Philadelphia. In every community where "Experience" is presented it always receives the enthusiastic endorsement of the clergy of all creeds and denominations.

"Experience" is a modern, comedy drama with music by Geo. V. Hobart telling in ten vivid and powerful scenes the temptation confronting youth the average young man going forth into the world to seek fame and fortune.

"Experience" is properly called "The Most Wonderful Play in America." I know of my own knowledge that this play has been a sensation elsewhere. I am sure it will arouse enormous interest here. It is the biggest show I have booked in ten years. I don't believe another one as big will come along in the next ten years. I am proud and happy to be able to bring "Experience" to the theatregoers of this city and am especially glad to announce that the famous New York-Boston "Experience" organization with a cast of 82 notable players comes here direct from nine months in New York and five months in Boston, and is considered by the critics the greatest "Experience" company ever assembled. Prices: \$10 to \$2.50. Seats will be placed on sale at Finney's Drug Store, Thursday, December 7. Better to secure your seats early. Mail orders must be accompanied by remittance or no attention can be given them.

Such being the case, do you wonder that the Fleetwood is called the most popular of all the moderate priced Sixes? And don't you think that there must be an intelligent reason behind such overwhelming preference on the part of the public.

ALFALFA PAYS BIG HERRON BROS. FIND

**BREEDING SWEET CLOVER
UNIQUE, NEW ENTERPRISE**

Progressive Farmers Believe For-
age Crop Will Solve Slope's
Problem

There is no question in the minds of the owners of Herronwood farms, near Leith, that alfalfa is a most profitable crop for the Slope country. These famous farms are owned by George W. Herron and his two sons, L. C. and D. W. Herron. G. W. and L. C. Herron were in yesterday to call upon Commissioner of Agriculture and Labor Flint, and they reported that on a fifty-acre field of alfalfa this fall they harvested 140 bushels of Green alfalfa seed, which sold at \$25 to \$30 the bushel.

The Herrons have been interested in alfalfa for four years. They now have one of the best stands to be found anywhere, and they are supplying seed to progressive neighbors who have learned to appreciate this most valuable forage crop.

Sweet Clover for Seed.
Until quite recently, sweet clover, which grows to abundantly everywhere in North Dakota, has been considered a worthless weed. Within the past year its value as a forage plant has been so clearly demon-

ed that next season the Herronwood farms will have forty acres of sweet clover for seed.

One of the problems of western North Dakota has been the improvement of its pasture. Sweet clover, it is believed, will solve this problem. The Herrons last summer pastured fifty cattle on a twenty-acre patch of sweet clover and would still have laid an abundance of seed this fall, but for an early frost.

The proprietors of Herronwood farms came to North Dakota from near La Crosse, Wis., eleven years ago. They are real farmers, excellent representatives of the splendid type of agriculturists which the Slope is now attracting.

FARMERS UNION ORGANIZER HERE

Predicts Big Attendance for Annual Convention in Bismarck Dec. 6

Charles H. Jessman of Tuttle, state organizer for the Farmers' union, came in Friday from Steele, where he attended a Kidder county union meeting yesterday.

The Farmers' union has honored Bismarck by selecting this city as the site for its annual state convention, December 6. The union now has more than 5,000 members in North Dakota, and it is anticipated that at least 150 delegates, as well as many friends and visitors, will attend the meeting in this city next month.

The organization has now extended to 27 states, and is one of the most powerful organizations of agriculturists in existence.

county board refused to grant the appropriation.

The direct charge against the commissioners is that they contracted for some bridge work without advertising for bids. The commissioners contend the work was done by the day for reasons of economy and that by so doing the commission saved the county \$1,000.

1915 RECEIPTS LARGE.
The thirtieth annual report of the North Dakota commissioner of insurance, which Commissioner W. C. Taylor has just received from the printers, shows that 1915 receipts of \$1,941,878.88 were by far the largest in the history of the department. The receipts for 1914 were \$1,761,454.41, and

the total for the biennial period ending January 1, 1915, was \$3,411,932.05, a gain of \$58,933.45 over the previous two years.

EVERYONE you know talks motor cars. If you want to be able to discuss this subject intelligently, send for your copy of this book. It explains the construction and operation of motors in general. It explains the principles of the Knight sleeve-valve motor in detail.

This motor, an American invention, revolutionized the European motor car industry.

For years its use was confined to high-priced European cars. Now it can be secured in American made cars of moderate price. All motorists are talking about this motor.

The book that explains it makes the operation of an automobile motor so plain that anyone can understand it. And there are illustrations to make every point clear.

Your car should have the right attention and care to be in fit condition next spring. You are running a great risk if you store your car in a place that is not provided with heat.

The constantly changing weather extremes,

the damage to paint and tires and the expansion and contraction of metals makes it an expensive way of keeping a car. It needs just the right temperature; the wheels should be jacked up off the tires and in our modern evenly heated building, we are well equipped to serve you.

LITTLE EVIDENCE AGAINST MEMBERS OF COUNTY BOARD

Governor Hanna Has Come Under
Adversent Points of
Law

Nothing startling or sensational developed in the hearing before Governor Hanna on the charges brought against Commissioner Colgrove, Schmidt and Reiger of Hettinger county, whose removal is sought by State's Attorney H. V. Crane.

After hearing all of the testimony, the governor announced he would take the case under advisement, pending counsel upon some points of law involved, and which are being looked into by Attorney General Linde.

The entire litigation apparently has arisen out of State's Attorney Crane's desire to wage a "dry" campaign against violators of the prohibition law in Hettinger county. A large sum was asked for aid in the prosecution and conviction of violators. The
